NEWTOWN POLICE DEPARTMENT LIEUTENANT GEORGE SINKO #3 HQ DASH CAM VIDEO TIMELINE

ACTION TAKEN: On 02/23/13, the DVD of the recording from LT George Sinko's (Car # 17) vehicle video recorder, was seized from SGT Wisentaner (Newtown PD) by Detective Mudry # 824 and entered as Exhibit # 356A in this ongoing investigation. The DVD is a recording of LT Sinko's response to the Sandy Hook School Shooting that took place on 12/14/12.

During the recording of the video, LT Sinko was working an extra duty construction assignment with Brennan Construction. The assignment was located at the intersection of South Main Street (Rte 25) and Swamp Rd (Newtown/ Monroe town line). The video is a forward facing view from the cruiser. During the play of the video, it displays the title of "Car 17 Off Mulhall." His dash cam video was activated and the audio portion was recording during the construction assignment.

The DVD recording was sent to the State Police Forensic Lab to be converted into working copies for the investigation. The initial DVD recording was placed onto three separate DVDs. The recordings can be viewed on a Windows Media Player only. The video only provides a running time in increments of minutes and seconds. During the play of the video, the timer of the video runs in the lower right hand corner with the length of the video shown in the upper right hand corner of the video. The time stamp from the Newtown PD radio transmissions was used as a baseline to calculate the time that pertinent events were happening. The actual time of the event was calculated using the time stamp of the Newtown PD radio transmission plus or minus the run time of the video. The DVDs are broken down as follows:

NEWTOWN POLICE DEPARTMENT SURVEILLANCE VIDEO REPORT: EXHIBIT # 357

ACTION TAKEN: On 02/24/13, the DVD of the recording from the Newtown Police Department surveillance video was seized from SGT Wisentaner (Newtown PD) by Detective Mudry # 824 and entered as Exhibit # 357 in this ongoing investigation. The DVD is a recording of the police department's response to and the activitiy at the department after the Sandy Hook School Shooting that took place on 12/14/12. Audio was not available on the recording. The time stamp on the recording was inaccurate. This was proven when Officer William Chapman's Dash Cam video (which was determined to be time accurate) depicts him responding to SHES on Church Hill Rd prior to him leaving the police department building.

The DVD recording was sent to the State Police Forensic Lab to be converted into working copies for the investigation. The following is a brief summary of the pertinent events that can be seen on the video:

09:38:14 Newtown police officers rushing out of the building to respond to Sandy Hook Elementary School (camera # 09 and camera #10 view of the lobby/entrance.)

09:56:48 [redacted] white mini van, carrying several survivor students from room 10, pulls into the parking lot and parks in the handicap parking spot by the front door of the police department (camera 15-front parking lot.)

09:57:05 Survivor students, [redacted], enter building with [redacted], (in front) a SHES mother. [redacted], another SHES mother, enters the building behind them (camera #9 and #10- lobby/entrance.) [redacted] found the children running on Riverside Drive, near the corner of Cherry Street. [redacted] also stopped to assist [redacted]. Both women are mothers

10:58:25 Newtown Officer Grecco begins to interview the survivor children in the processing/interview room of the police department (camera # 04.)

On December 15, 2012, I was assigned by Sgt. Pattberg to follow up on video surveillance seized by Det. LaCluyze and Det. Gogluicci. I was informed that these detectives seized video surveillance (Exhibit #50) from Tony Tomassi who is a Loss Prevention employee for Dick's Sporting Goods in Danbury, Connecticut.

I was informed that Mr. Tomassi had additional video of the same individuals at the gun case at Dick's Sporting Goods in Danbury, Connecticut on 12/11/12. I was given a copy of the original lead sheet and asked to follow up on the additional video.

On December 15, 2012 at 1101 hours I met with Mr. Tomassi at Dick's Sporting Goods located at 470 Lewis Ave in Meriden, Connecticut. Mr. Tomassi showed me the additional video he captured and saved to a thumb drive labeled "San Disk Cruzer Glide 8GB." Tomassi supplied me with a yellow lined sheet of paper titled "Dick's Sporting Goods #612 Danbury, CT 12/11/12." Tomassi also pointed out seven listed times corresponding with the video surveillance he captured on the thumb drive. Tomassi showed me the video surveillance which depicted the individuals entering and exiting the store, as well as going to and from the gun counter. Tomassi also provided me with nine captured video stills, depicting three individuals that are in the video surveillance.

On December 15, 2012 at 1155 hours I seized the thumb drive labeled "San Disk Cruzer Glide 8GB" from Tomassi. I transported the thumb drive to the Western District Major Crime Van which was at the scene. There I met with Det. Sliby who was in charge of evidence. (Metal Fragment in SHES - Exhibit #368)

ACTION TAKEN:

On 06/06/13 at approx. 1703 hrs., I seized a silver & copper colored metal fragment that was stuck in the wooden border of a display board that was on the hallway wall across from Room #9 in the Sandy Hook Elementary School (refer to Ex. #368). This fragment had been discovered by Newtown Police Officer Jeff Silver, who then advised me of its location. I placed the fragment in a "druggist fold" in a piece of notebook paper and then transported it to the WDMC-A office in Southbury. At approx. 1837 hrs. I secured it in the WDMC-A temporary evidence locker.

On 07/16/13 at approx. 1423 hrs., I took the fragment out of temporary evidence and processed it in accordance with CT State Police procedures. I also completed an Inventory Of Property Seized Without A Search Warrant form (SEE ATTACHED JD-CR-18). At approx. 1520 hrs. I placed the fragment in the Troop A temporary evidence holding locker #8.

Evidence Report

On December 14, 2012 at approximately 0935 hours, the Newtown Police Department and the Connecticut State Police responded to an active shooter situation at Sandy Hook Elementary School located at 12 Dickinson Drive in Newtown, Connecticut. The incident involved the suspect, Adam Lanza (DOB 04/22/82), who entered the school, shot and murdered numerous victims, which ultimately ended with Adam Lanza dying of a self inflicted gunshot wound. The Central District Major Crime Squad was requested to assist by processing the residence of Adam Lanza located at 36 Yogananda Street, Sandy Hook, Connecticut. Western District Major Crime was responsible for processing the Sandy Hook Elementary School at 12 Dickinson Drive, Newtown, Connecticut.

The items of evidentiary value were seized utilizing exhibit numbers that started with six hundred and one (601) in order to avoid duplicating exhibit numbers with Western District Major Crime. The following items numbered six hundred and one (601) through six hundred and thirty-four (634) were seized throughout the course of the investigation at 36 Yogananda Street, Sandy Hook, Connecticut. All items were inventoried, packaged and labeled as items of evidentiary value. On December 21, 2012 at approximately 1211 hours, items numbered six hundred and one (601) through six hundred and thirty-four (634) were turned over to TFC Gravel, who secured the evidence in the Troop A evidence room. On January 23, 2013 at approximately 1145 hours, I transferred the above mentioned evidence items from the Troop A evidence room to the Central District Major Crime evidence room.

TRANSCRIPTION OF RICHARD THORNE'S (SCHOOL CUSTODIAN) 911 CALLS TO BOTH STATE AND NEWTOWN POLICE

ACTION TAKEN: In this investigation, I was assigned to transcribe the 911 call made by school custodian, Richard Thorne. Thorne was located in the west hallway of the school during the school shooting and called 911 from that same location. The purpose of transcribing the telephone calls was to assist in putting together a timeline for the school shooting.

The telephone calls and Police radio transmissions were obtained from the centralized dispatch center of Troops A, B, and L for the date of 12-14-12 from approximately 0930 hours to approximately 1030 hours. The first portion of Thorne's telephone call, which was received by the Connecticut State Police, is part of an exhibit that was previously entered into evidence: Exhibit # 349: CSP 911 calls and police radio transmissions. The telephone call is located in the file "Item #1" of 172 items, the first half hour of transmissions. The first portion of the telephone call consists of a conversation between dispatcher Betsy Brennan and custodian Richard Thorne. The second portion of the telephone call is part of exhibit #336: Newtown Police Department 911 and routine calls to/from the PD. The second portion of the telephone call consists of a conversation between dispatcher Robert Nute and custodian Richard Thorne. The call to the State Police was transferred to Newtown PD and is located in the file named "911 Trunk 3."

Newtown Police Officer Jeff Silver assisted me with the transcription of the portion of the telephone call that was transferred to Newtown PD and answered by dispatcher Nute.

The following is the transcription of the 911 telephone calls:

TRANSCRIPTION REPORT: CONNECTICUT STATE POLICE RADIO TRANSMISSIONS ON 12-14-12

ACTION TAKEN: In this investigation, I was assigned to transcribe the CSP radio transmissions that were made during the agency's response to the Sandy Hook School Shooting on 12-14-12.

The telephone calls and Police radio transmissions were obtained from the centralized dispatch center for Troops A, B, and L for the date of 12-14-12, from approximately 0930 hours to approximately 1030 hours and entered into evidence as Exhibit # 349: CSP 911 calls and police radio transmissions. The transcription consists of the radio transmissions between the Troop and the personnel responding to the scene and conversations between the Troop and Newtown PD Dispatcher Jennifer Barocsi. It also includes the transcription of telephone calls made to the Troop from personnel present at the scene who were unable to relay pertinent information over the air because their portable radios were not transmitting properly. The 911 telephone calls made to the Troop regarding the incident that were of an investigative importance were transcribed in separate reports.

During the time period of the radio transmissions, Dispatcher Betsy Brennan was primarily assigned to the Troop A dispatch, Dispatcher Mark Nadeau was primarily assigned to the Troop L dispatch, and Dispatcher Karen LaPrade was primarily assigned to Troop B dispatch. Sgt Michael Roach, TFC Timothy Loomis, and TFC Richard Binkowski were also working in the dispatch center. The transmissions and telephone calls are made by state police personnel, Southbury police officer (Tierney) , State's Attorney Inspector Don Brown, and an Oxford Constable (Ramirez).

The entire transcription report was completed as a word document and is attached to this report. Refer to document # 00156923. In the report, the times of dispatch vary due to the transmissions coming over the separate dispatch channels of both Troop A and Troop L. Troop A and Troop L

THE UNDERSIGNED, AN INVESTIGATOR HAVING BEEN DULY SWORN DEPOSES AND SAYS THAT: I AM THE WRITER OF THE ATTACHED POLICE REPORT PERTAININGTO THIS INCIDENT NUMBER. THAT THE INFORMATION CONTAINED THEREIN WAS SECURED AS A RESULT OF (1)MY PERSONAL OBSERVATION AND KNOWLEDGE: OR (2)INFORMATION RELAYED TO ME BY OTHER MEMBERS OF MY POLICE DEPARTMENT OR OF ANOTHER POLICE DEPARTMENT:OR (3)INFORMATION SECURED BY MYSELF OR ANOTHER MEMBER OF A POLICE DEPARTMENT FROM THE PERSON OR PERSONS NAMED OR IDENTIFIED THEREIN, AS INDICATED IN THE ATTACHED REPORT. were eventually linked together on a patch so that the Troopers from each troop can communicate with each other. The Troop L dispatch transcriptions were written in bold type to differentiate the transmissions from Troop A. The numbers in parentheses that are written in bold type and appear directly after the dispatch time are the "file" numbers in which the transmissions were located in Exhibit 349.

Cindy,

I am submitting to you one (1) audio CD with two (2) audio recordings of two (2) separate 911 calls made to Newtown PD on 12-14-12 regarding the Sandy Hook Elementary School Shooting. The two recordings were copied from Exhibit # 00336.

Recording #1 – (0KB6(V#W00112215) 9:35:39 (time)

Under the original evidence submission, this call is located in the file "911 Trunk 1."

This is the 911 call from [redacted]. It is 24 seconds long. I can hear continuous rapid gunfire from 0:15 to 0:22 (seconds) of the telephone call.

Recording #2 – (0KB6)L5100312215) 09:36:13 (time)

Under the original evidence submission, this call is located in the file "911 Trunk 3."

This is the 911 call from Rick Thorne, the school custodian. It is 14 minutes and 43 seconds (14:43) long.

I can hear continuous gunfire (slower than call above) during the following times:

00:35-00:41 (gunfire sounds far away)

3:09-03:34 (continuous)

03:46-03:49 (continuous)

During recording #2, the radio transmissions and background noise from Newtown PD are obstructing the sound of the gunfire. Anything that we can do to get rid of that noise would be greatly appreciated.

I went over the telephone calls (enhancements) made to the CSP and made note of the following:

Item #2 is [redacted] telephone call, mother in the conference room #9. I hear gunshots during the following times:

03:22 to 03:40 (continuous)

Also I hear two separate single shots at 03:59 and 04:02

Item #7 is [redacted] telephone call, teacher that was shot in room 1. I can hear gunfire from 2:06 to 02:24. I can also hear one (1) single shot at 2:41.

I hope this breakdown helps. If you need anything else, just call me. Thanks again for your help.

Alison

Analysis of Audio Recorded Gunshots

Dear Detective Peters,

Enclosed you will find the six CDs received for study, four CDs containing files where all voices have been muted, and my report describing procedures used to download files and isolate gunshots, complete with charts and plots.

In addition to plots of the full files, I have prepared expanded plots to assist in identifying the gunshots. Also, the charts contain precise elapsed times for each observed gunshot.

Note that the CDs containing muted voice and noise are in WAV file format, compatible with PC and laptop computers using Windows Media Player software. The files can be played while viewing the corresponding plots, to assist the listener.

Please call if there are any questions, or if there are additional recordings to be examined.

SCOPE OF WORK

Five CDs and one DVD were furnished for examination. The aim was to locate recorded gunshots, identify the exact times, prepare files with only gunshots and no other voices or background noise, prepare a chart of the number of gunshots and exact elapsed times of each, and to prepare a written report.

PROCEDURE

Initially each of the CDs and the DVD were examined to determine their contents. A chart was prepared of the length of each recording, the type of file, and ultimately the number of gunshots located on each recording. SEE "RECORDINGS" CHART.

All of the audio files from 911 calls were converted to high-resolution WAV files for examination. The DVD Dash-Cam file audio portion was separated and converted to a high-resolution WAV file as well. Only the initial 5 minutes of this file was studied, as per notes supplied from officers who had reviewed the files before delivery.

The files were examined for discontinuities in recording. There was no evidence of erasures, breaks, over-recordings or erasures. All received files were observed to be authentic.

The files were played repeatedly, and digitally slowed to assist in identification of gunshots. A tabulation was prepared for each recording, indicating the number of gunshots, as well as their exact elapsed time in their respective files, to an accuracy of one ten-thousandth of a second. SEE "RECORDED GUNSHOT CHART".

Next, precision editing was performed to produce audio files containing only the gunshots, digitally muting all recorded voices and background sounds between gunshots. In the case of speech coincident with a gunshot, only the part of the speech that overlaps the gunshot is saved.

Plots were made of the files showing the gunshots, along with plots of the original files. In each case, for the sake of clarity, once all of the sounds in between gunshots were muted, the gunshot levels were increased, for visibility.

In each case, the upper plot is the file with only gunshots indicated. The lower file is the original file, with no editing. Refer to the "Recorded Gunshot Chart" for exact

times of gunshots. Expanded plots were made, (SEE PLOTS 1-A through 5–A) and it was determined that the noises in [redacted] 04 call were not gun-related. It is included for comparison. Note the width of these noises as compared to the narrow gunshot sounds on the other plots.

Finally, CDs were produced containing the gunshot-only files. They are included with this report.

NOTES

Please note that most of the recordings are made using a telephone. The telephone instrument was designed as a close-talking instrument. As such, the output drops off dramatically from sounds that are remote. As a result the gunshot amplitude is not very loud on the 911 calls. Added to this are intervening doors, clothing, position and direction of the handset instruments at the times of the calls, and distance from the guns. Nevertheless I believe that we have located the gunshots recorded on these files. Please review and make corrections using any external information, if it is available.

CONCLUSIONS

1. All files submitted for examination were observed to be authentic and continuous.
2. Multiple gunshot sounds were detected on five recordings.
3. The times of the gunshots were able to be determined to a precision of one-ten-thousandth of a second.
4. Gunshot-only files were produced, and transferred to CD
5. Plots of gunshot-only and original files were created.
6. Charts of observed elapsed times of gunshots were produced.

GARMIN NUVI 200 GPS TECHNICAL INFORMATION

ACTION TAKEN:
On August 12th, 2013 at approximately 1515 hours, I contacted Garmin Technical Support (1-800-800-1020), by phone to inquire about the technical specifications of the Garmin Nuvi 200 GPS unit. Betty, a technical support representative, stated that once the GPS unit is powered on, it will automatically identify its location through satellite reception and set the date and time accordingly. The GPS unit will not prompt you to set the date or time and can only be changed manually through the settings option. Once the unit is powered on, it will continue to utilize satellite reception for location purposes, however it will not record a "journey" unless a "final destination" is entered into the unit. A "final destination" requires a state, town, and street address to be entered directly into the unit. The GPS unit can not actively be traced and a "log" of recent destinations will be saved in the unit. Additionally, "favorites" or most frequently visited destinations, can also be entered and saved in the Garmin Nuvi 200 unit.

CASE STATUS: This case will remain active pending further investigation.

(Transfer of Clothing - Exhibits #300 & #301)

ACTION TAKEN:

On 02/14/13 at approx. 0848 hrs., I took custody of exhibit #300 & #301 from the Troop A Evidence Officer, TFC Lonny Mo #998 at Troop A, Southbury. These exhibits were clothing worn by two of the victims that had been transported to Danbury Hospital. State's Attorney Stephen Sedensky had previously released these and other exhibits so that they could be returned to the victims' families; therefore from this point forward they were no longer held as evidence in this investigation.

At approx. 1330 hrs., I secured these items in the temporary evidence area within the Troop A locker room, which had been sectioned off as a safekeeping area and secured using evidence tape. The door to the locker room was double key locked.

ACTION TAKEN: During the viewing and documentation of the dash camera videos from Newtown Police Department, it was discovered that the time stamps on the dash cam videos from the State Police were not correct. The Newtown Police Department videos were compared to the time stamp of their radio transmissions and were determined to be accurate. The State Police videos were then compared to Newtown Officer Chapman's video. The following errors were found on the dash cam videos:

The times reported on TFC William Blumenthal's dash cam video were found to be off by twenty (20) seconds. Therefore twenty (20) seconds needs to be added to the times reported.

The times reported on TFC John McGeever's dash cam video were found to be off by ten (10) seconds. Therefore ten (10) seconds needs to be added to the times reported.

The times reported on LT (MSGT) Michael Davis' dash cam video were found to be off by One (1) minute and twenty-one (21) seconds. Therefore one (1) minute and twenty-one (21) seconds needs to be added to the times reported.

CASE STATUS: This case will remain active pending further investigation.

11:44:07 Vanghele: "Are they uniform or SRT?"

11:44:11 McGowan: "I came up with all uniform."

11:44:16 Vanghele: "Roger, is that number thirty six?"

11:44:19 McGowan: "Roger thirty six."

11:45:11 Vanghele: "SP uh, SRT team will be on their way there. They should be there in 10 minutes."

11:45:19 McGowan: "Roger, when they get there, they will have their CSP out in front."

11:45:25 Vanghele: "Roger."

11:45:36 Sinko: "3 HQ to S3 (Wisentaner)."

11:45:44 Wisentaner: "S3 headquarters."

11:45:47 Sinko: "Alright, we are going to set up PIO at Treadwell park. We are in the process of coordinating that now. I am with CSP and we will be there shortly."

11:46:00 Wisentaner: "Roger."

11:46:04 Penna: "D5 to S3 (Wisentaner)."

11:46:10 Wisentaner: "S3 headquarters."

11:46:14 Penna: "See if you can get a hold of S7 (Santucci) or 4 HQ (Vanghele). They were inquiring about video cameras at the Sandy Hook School. There are no video cameras that record. The only camera they have is to let people in with the call button, which does not record."

11:46:29 Wisentaner: "Roger."

11:46:58 Kullgren: "S6 to D5 (Penna), I copy that transmission, thank you."

11:48:03 Kullgren: "S6 to any Newtown units that need relief, advise and we will arrange for that."

11:48:11 Seabrook: "95 to S6 (Kullgren)."

11:48:14 Kullgren: "S6."

11:48:17 Seabrook: "81 (Figol) and myself checked the woods by the school, all the way to Treadwell. We're checking Treadwell now."

11:48:27 Kullgren: "Received."

11:46:04 Unknown: "---digital--D6—."

11:49:06 Sinko: "Ok, we are going to be setting up for media at Treadwell Park. You can divert media inquiries to Treadwell and we will handle it there."

11:49:18 Chickos: "Ok, so any... any... any, media that is showing up is to be directed to Treadwell, correct?"

11:49:26 Sinko: "That is correct, and if you can have them use the Pole Bridge Road...um, route to get there. Keep them off of Riverside."

11:49:37 Chickos: "Ok, now what about phone media? We are obviously getting flooded with those calls as well."

11:49:45 Sinko: "We will be releasing press releases later in the day. It is still an active scene."

11:49:51 Chickos: "Ok, one more question, Brookfield has called, they are concerned because they want to know if their school should be in lockdown, yes or no on that, because they said Danbury is actively pulling over many cars that are... somehow got a description of a van."

11:50:10 Sinko: "You can leave... tell them that is up to their officials. We don't have any indication at this time that they are involved, but that is up to them."

11:50:21 Chickos: "Roger, received."

11:50:34 Silver: "63."

11:50:37 Chickos: "63, go ahead."

11:50:40 Silver: "Be advised, I am at the EOC with several Fairfield officers including detectives."

11:50:58 Sinko: "3 go ahead."

11:51:01 Wisentaner: "We are going to stage all the other agencies that are coming at the EOC at Fairfield Hills. 4 HQ (Vanghele) is going to be the supervisor up there. 63 (Silver) is there now."

11:51:13 Sinko: "Roger, thank you."

11:53:01 Barocsi: "99 (Hayes)."

11:53:04 Hayes: "Go ahead."

11:53:06 Barocsi: "Did you give that radio to Bethel yet?"

11:53:11 Hayes: "I am with 15 (Ketchum). They are heading down with us."

11:53:15 Barocsi: "Received, I've got another call at Head of Meadow School. They are stating that there is a male party sitting out on the bench. They just feel it is suspicious. They are not sure if it is a parent or not. If you can, just check on it."

11:53:27 Hayes: "Roger, 15 (Ketchum) and myself will be en route,"

11:53:29 Barocsi: "Received."

11:54:45 Ketchum: "15"

11:54:50 Ketchum: "Are you still on the phone with the individual from Head of Meadow, or did you hang up?"

11:54:55 Barocsi: "Negative, it was the principal who called. She stated she believes it's a student's parent but she---."

11:55:05 Sinko: "3 HQ."

11:55:06 Barocsi: "3 (Sinko) go ahead."

11:55:07 Ketchum: "Ok, any description or anything?"

11:55:12 Sinko: "Who do I have for Newtown officers on Riverside?"

11:55:16 Barocsi: "3 (Sinko) stand by. I have a white male individual, white, with light colored hair on his cell phone with a blue jacket, 15 (Ketchum)."

11:55:28 Ketchum: "15 copy."

11:55:50 Barocsi: "HQ to 4 (Vanghele)."

11:55:54 Vanghele: "4 HQ."

11:55:56 Barocsi: "Do you know what units are on Riverside Road at this time?"

11:56:08 Vanghele: "uh, I got probably four here. Why? What do you need?"

11:56:14 Barocsi: "3 HQ (Sinko) was asking. 3 HQ did you copy?"

11:56:20 Sinko: "Yeah, if you could just get someone down at that intersection, divert all the media.. 34 to Pole Bridge, we don't want anybody else coming up Riverside."

11:56:30 Barocsi: "4 (Vanghele) you copy?"

11:56:43 Wisentaner: "S3 to 3 HQ (Sinko)."

11:56:47 Sinko: "Go ahead."

11:56:49 Wisentaner: "Has the decision been made on our agency? They are all calling in to see what they should do."

11:56:57 Sinko: "Uh, what do you mean?"

11:56:59 Wisentaner: "Off duty personnel are calling whether they should come in or not."

11:57:05 Sinko: "Negative, we have plenty of people here right now."

11:57:09 Wisentaner: "Roger."

11:57:14 Vanghele: "4 to 3 (Sinko), I have nobody that can go down there, stand post and divert media, or close down the road. Maybe you can have one of the other agencies assisting do that?"

11:57:27 Sinko: "Alright, Roger."

11:57:59 Ketchum: "15, we are out at Head O'Meadow. At this point there is no problem."

11:58:02 Barocsi: "Received 15."

11:58:10 Barocsi: "15 (Ketchum)."

11:58:13 Ketchum: "Go ahead."

11:58:14 Barocsi: "Can you advise if someone checked [redacted]? I know that Bethel was supposed to be going there."

11:59:07 Silver: "63."

11:59:09 Barocsi: "63."

11:59:12 Silver: "5 (Robinson) is at the EOC. I will be sending Fairfield detectives to headquarters to assist with interviews."

11:59:18 Barocsi: "Received, 5 (Robinson) is at EOC, detectives to headquarters."

11:59:25 Nute: "63 (Silver)."

ACTION TAKEN: On 04/17/13, I received the call detail records from Cellco Partnership DBA Verizon Wireless for Nancy Lanza's cellular phone. The records were previously entered into evidence as Exhibit # 365.

After reviewing the records, I found that data was consistent with the Cellebrite download completed by Det Sliby and the documentation report completed by Det Downs earlier in the investigation.

CASE STATUS: This case will remain open pending further investigation.

ACTION TAKEN: On 04/19/13, I received the call detail records for telephone number 203 364-9879 dated 01/01/2012 through 12/14/2013 from AT&T as a result of a search warrant. The information was previously entered into evidence as Exhibit # 367. A working copy was made and is attached to this report.

Upon review of the records, I noticed that there wasn't a large amount of activity from 01/02/2012 to 10/01/12. According to the records, the telephone number 203 364-9879 was listed as the originating number on only two occasions and on all other calls it was listed as the terminating number. The contacts that made a connection are indicated by the number "0" in the "Ans Ind" column. A number "1" indicates that no connection was made. On only two occasions did the number 203 364-9879 actually make a connection. That connection was made in the following manner:

On 01/23/12, phone number 203 364-9879 connected to telephone number 800 504-5897@ 1535 hours for one (1) minute and one (1) second and again @ 1535 hours for four (4) minutes and forty-six (46) seconds. Telephone number 800 504-5897 belongs to Optics Planet.com, a company that specializes in selling binoculars, rifle scopes, military style clothing and sporting goods.

On 08/16/13, I spoke with Colleen Savage, Custodian of records for AT&T to ask for her assistance in reading the records. I was unable to obtain subscriber information on some of the telephone numbers listed. Some telephone numbers were associated with numerous people. Savage informed me that it appears that there were two telephone numbers associated with 36 Yogananda Street, Newtown, CT. The 203 364-9879 number appears to be used for the computer. Contained within the information in the records, are six digit numbers separated by a hyphen (i.e.; 706-349). Savage informed me that these are characterized as voice over IP numbers and are usually associated with the number that appears before it. Savage also informed me that it appears that the person who was using the line pretty much did not accept a lot of incoming contacts as seen by the number of "1s" (unanswered) listed in the "Ans Ind" column. Overall, there is nothing remarkable to report about this telephone number

ACTION TAKEN:

On 08/16/13, I was assigned to review documents returned from the FBI-Behavioral Analysis Unit. A review of box #3 of 5 boxes revealed a spiral bound booklet called "The Big Book of Granny", which appeared to be created by the shooter and [redacted]. The book is bound in a black plastic spiral binding and covered on the front and back with a clear plastic sheeting. The book starts with a list of 85 Granny Jokes. All of the jokes are degrading statements beginning with "Granny!......."

Following 3 pages of Granny Jokes, the book lists "Granny Products of the Future", which includes advertisements for Granny Action Figure, Granny Action Figure 2, Granny Action Figure 3, Granny Action Figure 4, Granny Action Figure 5, Granny Action Figure Set (includes all 5 Granny Action Figures), Gran Spam, Granny Oats and Granny's Granny. Each of the products is described in an advertisement format with monetary cost and phone number to call to order.

The next section of the book is labeled as "Granny's Clubhouse of Happy Children." This section is a typed dialog from an imaginary TV show. The main characters feature Granny, her son "Bobolicious" and several children. In the show, Granny and Bobolicious are talking to the group of children as if in a group. In the first episode, Granny punches one boy in the face, throws a match and causes an explosion and threatens to shoot and kill the children. The second episode, Granny's Clubhouse of Happy Children 2, starts out with Bobolicious speaking to the children. Bobolicious said "Hi! I'm Bobolicious the Explorer..... Remember last time when everyone was slaughtered!? Well...You bread-brain leeches gave me 75 years of prison for that so called "Tragedy"! I was having fun!" The third and final episode, Granny's Clubhouse of Happy Children 3, introduces two new characters, Dora the Beserker and her monkey, Shoes. Bobolicious says that they are going to play a game of "Hide and go Die."

STATE OF CONNECTICUT, DEPARTMENT OF PUBLIC SAFETY-INVESTIGATION REPORT (DPS-302-E) (REVISED 2/3/06)

The next section of the book is labeled "Adventures of Granny." There are eight chapters labeled "The Adventures of Granny" through "The Adventures of Granny 8." All eight chapters are dialog between Granny and another character identified as Granny's Son with various persons added in. In the first chapter, Granny and Granny's Son rob a bank, Granny shoots people with her rifle cane, and then blows up the bank with dynamite. After the robbery, Granny's Son shoots Granny in the head with a shotgun. In the second chapter, Granny and Granny's Son go on a boat ride. Granny falls out of the boat and Granny's Son throws her a cement floatation device which forces her to sink to the bottom of the ocean. In the third chapter, Granny and Granny's Son try to capture a boy and stuff him, to put on the mantle. Granny kicks the boy into the fireplace and he begins to burn. The boy jumps out of the fire and Granny punches him in the face. Then Granny shoots at him three times with her rifle cane and misses him. Granny then throws a Granny Action Figure to the boy. The boy gets distracted and the action figure comes alive and shoots the boy. Granny's Son says "Yay! Now we can hang it!" In chapter four, Granny and Granny's Son go to a hockey game. Granny goes onto the ice and punches one of the players and then shoots him with her rifle cane. After the hockey game, Granny and Granny's Son go to Duchess restaurant to eat. In chapter five, Granny goes to Marine boot camp and meets up with Dora the Beserker and Swiper the Raccoon. Granny asks Dora if she would assassinate a soldier at midnight and Dora agrees to do it. Dora says " I like hurting people...Especially children..." Granny then shoots multiple people with her rifle cane. When Granny escapes boot camp and goes home to Granny's Son, she tells him that she left boot camp because she killed the entire Marine legion. In chapter six, Granny and Granny's Son are picked up from the side of the road by Dora the Beserker. Dora tells Granny that she can take her wherever she needs to go, after they go to the daycare center. When they arrive at the daycare center, Dora sends Swiper the Raccoon inside to distract the children. Then Dora enters and says "Let's hurt children." In chapter seven, Granny and Granny's Son go to visit Dora the Beserker. Dora takes them on an adventure to find Drunk. In the adventure, they encounter a rooster and have to call upon their bag to get a shotgun. In their bag is a handgun, AK-47, M-16, rifle, rocket launcher, musket and a shotgun. Dora uses the shotgun to shoot the rooster and Swiper the Raccoon. Later in the adventure, Dora accidentally shoots her monkey, named Shoes, Lenny the Cow and Tico the Chipmunk. Dora eventually gets arrested for possession of 6 guns and murdering 4 animals. In chapter 8, Granny and Granny's Son use a time machine to go back in time. In their travels, they meet The Beatles. Granny kills all of The Beatles and says that she kills every bug she sees. Granny and Granny's Son get arrested and sentenced to 75 years in jail for killing The Beatles. (See attached copy of the cover of The Big Book of Granny)

ACTION TAKEN: On 08/02/13 at 1010 hours, Troop A Evidence Officer TFC Mo received, via FedEx, the final recorded gunshot analysis report and four CD recordings from Paul Ginsberg of Professional Audio Laboratories, NJ. One of the recordings was entered into evidence as Exhibit # 000369A: Revised analysis of gunshots. Exhibit # 000369A is the final draft of Exhibit # 000369. The other three recordings were relabled as working copies. An additional working copy of the recording was made and labeled, for a total of four working copies that are attached to this report (SEE ATTACHED CDs AND COMPLETE GINSBERG REPORT).

In the final report of the recorded gunshots heard during the three 911 calls and the Newtown police officer's dash camera , Paul Ginsberg was able to isolate what was believed to be gunshots heard on those recordings. Ginsberg was able to determine that the following number of gunshots per recording can be heard:

[redacted] call: 13 gunshots
[redacted] call: 8 gunshots
Thorne's call: 9 gunshots
Chapman's video: 8 gunshots

Ginsberg informed me that he was able to determine that what was thought to be gunshots heard on [redacted]s call was dispatch radio interference. In his report, Ginsberg provided the times of the gunshots. Those times given were the elapsed times from the beginning of the play of the audio files. In order to have a visual, side by side, plot of all the gunshots, I created a word document that is attached. I placed the names of the files that contain the gunshots in the sequential order of the placement of the call. I then took the elapsed time of the gunshot and added it to the start time of the call (which is noted in parenthesis) to get a relative time that the gunshot occurred. I found these times to be consistent and within the times

noted by me while listening to the 911 calls initially. On the chart, the two final gunshots, recorded are designated by an "*" indicating what is believed to be first shot from the handgun (*) and the suicide shot of the shooter (**). Refer to word document.

Analysis of Audio Recorded Gunshots

Dear Detective Peters,

Enclosed you will find four updated CDs containing files where all voices have been muted, and my report describing procedures used to download files and isolate gunshots, complete with charts and plots.

In addition to plots of the full files, I have prepared expanded plots to assist in identifying the gunshots. Also, the charts contain precise elapsed times for each observed gunshot.

Note that the CDs containing muted voice and noise are in WAV file format, compatible with PC and laptop computers using Windows Media Player software. The files can be played while viewing the corresponding plots, to assist the listener.

Please call if there are any questions, or if there are additional recordings to be examined.

Sincerely,

Paul Ginsberg, President

INTRODUCTION

Professional Audio Laboratories specializes in the enhancement, forensic examination, and presentation of audio and video taped evidentiary material. The company has been in existence for 38 years with Paul Ginsberg as its president.

During the past 38 years Professional Audio Laboratories has analyzed, enhanced and supervised the courtroom presentation of thousands of taped conversations including telephone calls, consensual meetings, video-taped meetings, as well as room bugs and body recordings recorded in various formats including Nagra, KEL, SME, Dash-cam, cassette, micro-cassette, reel, aircraft black-box, and digital recorders designed for law enforcement surveillance.

We have been court-qualified as expert, and have rendered expert testimony on 175 occasions in 35 Federal districts as well as in Canada. We have testified for prosecution, as well as defense.

All CDs bore the insignia of the Connecticut State Police.

SCOPE OF WORK

Five CDs and one DVD were furnished for examination. The aim was to locate recorded gunshots, identify the exact times, prepare files with only gunshots and no other voices or background noise, prepare a chart of the number of gunshots and exact elapsed times of each, and to prepare a written report.

PROCEDURE

Initially each of the CDs and the DVD were examined to determine their contents. A chart was prepared of the length of each recording, the type of file, and ultimately the number of gunshots located on each recording. SEE "RECORDINGS" CHART.

All of the audio files from 911 calls were converted to high-resolution WAV files for examination. The DVD Dash-Cam file audio portion was separated and converted to a high-resolution WAV file as well. Only the initial 5 minutes of this file was studied, as per notes supplied from officers who had reviewed the files before delivery.

The files were examined for discontinuities in recording. There was no evidence of erasures, breaks, over-recordings or erasures. All received files were observed to be authentic.

The files were played repeatedly, and digitally slowed to assist in identification of gunshots. A tabulation was prepared for each recording, indicating the number of gunshots, as well as their exact elapsed time in their respective files, to an accuracy of one ten-thousandth of a second. SEE "RECORDED GUNSHOT CHART".

Next, precision editing was performed to produce audio files containing only the gunshots, digitally muting all recorded voices and background sounds between gunshots. In the case of speech coincident with a gunshot, only the part of the speech that overlaps the gunshot is saved.

Plots were made of the files showing the gunshots, along with plots of the original files. In each case, for the sake of clarity, once all of the sounds in between gunshots were muted, the gunshot levels were increased, for visibility.

In each case, the upper plot is the file with only gunshots indicated. The lower file is the original file, with no editing. Refer to the "Recorded Gunshot Chart" for exact

times of gunshots. Expanded plots were made, (SEE PLOTS 1-A through 5–A) and it was determined that the noises in [redacted] call were not gun-related. It is included for comparison. Note the width of these noises as compared to the narrow gunshot sounds on the other plots.

Finally, CDs were produced containing the gunshot-only files. They are included with this report.

NOTES

Please note that most of the recordings are made using a telephone. The telephone instrument was designed as a close-talking instrument. As such, the output drops off dramatically from sounds that are remote. As a result the gunshot amplitude is not very loud on the 911 calls. Added to this are intervening doors, clothing, position and direction of the handset instruments at the times of the calls, and distance from the guns. Nevertheless I believe that we have located the gunshots recorded on these files. Please review and make corrections using any external information, if it is available.

CONCLUSIONS

1. All files submitted for examination were observed to be authentic and continuous.
2. Multiple gunshot sounds were detected on five recordings.
3. The times of the gunshots were able to be determined to a precision of one-ten-thousandth of a second.
4. Gunshot-only files were produced, and transferred to CD
5. Plots of gunshot-only and original files were created.
6. Charts of observed elapsed times of gunshots were produced.

Date and time of Investigation:

Location of Investigation:
Sandy Hook Elementary School, #12 Dickinson Drive, Newtown, CT

Incident Summary:
On12/14/2012 at 0941 hours State Police personnel were assigned to respond to the Sandy Hook Elementary School for a reported active shooter situation. Upon arrival State Police personnel discovered multiple persons deceased, including twenty (20) children, six (6) school personnel, and what was later determined to be the sole assailant. Detectives from the Central District Major Crime Squad were subsequently assigned to assist the Western District Major Crime Squad with the investigation into this incident.

Action Taken:
During the initial stages of this investigation, all vehicles parked at the Sandy Hook Elementary School were identified by searching each vehicle registration plate through COLLECT. Each vehicle was then listed on a Return of Vehicle form that was generated by Det. Gogluicci (CDMCS). These forms included vehicle information, location of vehicle, owner information, and a vehicle released to section, as well as a signature line for the person claiming the vehicle and the Trooper releasing the vehicle.

Once the vehicles were identified, detectives were assigned to contact the owners of the vehicles in attempt to have them remove their vehicles from the school parking lot. Upon the arrival of the owners (or other designee) to the school, their contact information was noted on the form. They, along

with the releasing Trooper, were then required to sign the Return form.

On several occasions teachers (or other property owners) who arrived at the school to retrieve their vehicle also requested personal belongings from their classroom. When this occurred a detective would retrieve those belongings and list them on the back of the Return of Vehicle form, with an accompaning signature from the property owner.

There were three separate instances where an Inventory of Property Seized Without a Search Warrant form (JD-CR-18) was completed for property retrieved from the school and turned over to the appropriate person (see attached).

REPORT: SEARCH WARRANT RESULTS FOR LANZA HOME TELEPHONE (203) 426-8167

ACTION TAKEN: On 04/19/13 I received the call detail report electronically from AT&T for Nancy Lanza's home telephone line, which was obtained through a search warrant (SEE ATTACHED 91 PAGE REPORT). The electronic records were copied to a CD and entered into evidence on 05/01/13 as Exhibit # 366 (SEE EXHIBIT REPORT). Working copies of that CD were made and are attached to this report (SEE ATTACHED CDs).

I created an amended version of the report (SEE ATTACHED) in which I took known telephone numbers that I obtained from Nancy Lanza's cellular phone contact list, Nancy Lanza's telephone/address book, and an Internet search, and imputted them into the document to replace the original telephone number listed. The amended version of the report covers a period of approximately 30 days (11/12/12 to 12/14/12). Any remaining telephone numbers listed were found to have no identifying information associated with that number. In performing a cursory search of the records, I did not find anything remarkable to report.

On the date of 12-14-12, I noticed several telephone calls that were made from the home to telephone number (203) 797-0615, beginning at 1350 hours. I called Colleen Savage, Custodian of records for AT&T and she explained to me that the number is a voicemail hub number. Savage stated that what happens is a caller calls the house and receives a voicemail. The number called will then automatically call out to the voicemail and therefore it registers as a call being made from the house. Savage stated that it is similar to a call forwarding system. When I called the telephone number, an automated voice asked me for the telephone number and a PIN number. I was satisfied that on 12-14-12, no telephone calls were made from 36 Yogananda Street, Newtown, CT.

SUPPLEMENTAL REPORT: ADDENDUM TO GPS

ACTION TAKEN:

On August 12th, 2013 at approximately 1030 hours, I drove to International Drive/Eagle Rd. in Danbury, CT to determine the reason the GPS would be positioned there during early morning times from 2400 hours to 0516 hours on the following dates of, 04/25/12, 04/28/12, 05/09/12, 05/10/12, 05/12/12, 05/19/12, 06/02/12, 06/03/12, 06/17/12. Upon arrival, I found that the plaza has three businesses, Lowe's, Best Buy and Loews Theatres.

Within Loews Theatres (AMC) I spoke with Joe Andrews, Maintenance and Repair. Andrews verbally stated that the last movie showing would be over at 0230 hours and the doors to the theatre are locked at 0245 hours. I informed Andrews of my reason for the visit and inquired if he remembers seeing the shooter at the theatre. At this point, I provided Andrews with a DMV blow back picture of the shooter and his mother. Andrews replied that he has never seen the shooter but has seen his mother. Because of the early morning times that the GPS was positioned in the parking lot I inquired why a person would be here and he replied that there is none. I then spoke with Corey Davidson, Supervisor. Corey stated that he recognized the shooter and has seen him in the theatre pretty much every weekend for the past four years. Davidson further stated that the shooter comes in by himself around 6pm and leaves at approximately 11pm. The only interaction he had ever had with the shooter was over token exchange for the game that the shooter always played, which was "DDR" Dance Dance Revolution. I then provided the DMV blowbacks to Davidson which he stated "that is the person I've seen here." Davidson further stated that another theatre employee, Darren Price, has had interaction with the shooter (Refer to Davidson's written statement.)

On August 15th, 2013, Det. Downs and I met with Darren Price, within Loews Theatres. Price stated that sometime in April of 2011 was the first time that he met the shooter, everybody referred to him as "DDR guy." Price interacted with the shooter by playing Dance Dance Revolution (DDR), which is a game that can be played simultaneously with another person. The shooter played the game so much that Price had to put a token on the machine indicating that he wanted to play. The shooter then asked, "Are you going to play?", which Price stated "yes." At this time, Price asked the shooter what his name was and he didn't reply, which made Price feel awkward. On occasion, Price observed the shooter playing "DDR" with [redacted] (ph.) (LNU), whom everyone referred to as "DDR Girl" and an Asian boy (Detectives believe to be [redacted].) The shooter would go to the theatre every Friday thru Sunday from 2pm to 6pm, playing for about 4 hours.

In August 2011, the shooter continued coming every Friday thru Sunday and started playing the game for about 8 to 10 hours.

Sometime in 2011, there was a large snowstorm and he hadn't seen the shooter for about month after that. According to Price, it was either before or after the snowstorm that he interacted with the shooter and that's when he formally told Price his first name.

When the shooter came back to the theatre in February 2012 he was wearing the same clothes as he always did, grey hoodie and slacks. However, he seemed more anti-social meaning he no longer played with [redacted] or [redacted]

The last interaction Price had with the shooter was in August or September of 2012.

Prior to this interview, Price was shown two photographs of which he immediately identified the shooter as "DDR guy." He did not recognize Nancy Lanza (Refer to Price's statement for details.)

I then proceeded to the Best Buy and spoke with James Melville, Channel Sales Manager. Melville stated that he has never seen the shooter within the store. Melville also stated that he has never observed anyone in the parking lot during the early morning hours.

I then spoke with Lowe's Store Manager, Angelo (LNU.) Angelo stated that he has never seen the shooter within the store. Furthermore, he has never seen anyone within the parking lot during the early morning hours.

I then spoke with Det. Lt. Michaels of the Danbury Police Department. Det. Lt. Michaels provided me with contact information for sergeants who

frequently patrol the area of the movie theatre. After speaking with the sergeants they stated that they never have encountered the shooter within the area, nor has any of their officers. There appears to be no reason why the shooter would be in that area.

Furthermore, I contacted the security agency (Force 1) whom patrols Commerce Park which is located in the same vicinity as International Drive/Eagle Rd. After speaking with the supervisors, I was informed that the International Drive/Eagle Rd. Plaza does not have contracted security at the plaza. I was also informed that in the morning hours it is common for teenagers to race fast cars on Thursday, Friday and Saturday.

In conclusion, I am unable to find a reason why the GPS would be located at the plaza during the early morning hours.

And the facts establishing the grounds for issuing a Search and Seizure Warrant are the following:

1. That the affiant Detective James McGlynn, #1268 is a regular sworn member of the Connecticut State Police Department and has been a member of said Department for the past 23 years having participated in numerous criminal investigations, which have led to arrests and convictions. That the affiant McGlynn is presently assigned to the State Police Central District Major Crime Squad.

2. That the affiant Detective Scott Wisner, #507 is a regular sworn member of the Connecticut State Police Department and has been a member of said Department for the past 20 years having participated in numerous criminal investigations, which have led to arrests and convictions. That the affiant Wisner is presently assigned to the State Police Central District Major Crime Squad.

3. That on Friday, 12/14/12, at approximately 0935 hours, Newtown Police Department received a 911 call from a caller at the Sandy Hook Elementary School, 12 Dickinson Drive in Newtown, CT. The caller reported that an active shooting situation was occurring at the Sandy Hook Elementary School.

4. That as a result of the 911 call, numerous law enforcement personnel including members from the Newtown Police Department and the Connecticut State Police responded to Sandy Hook Elementary School, in Newtown. Upon arrival, law enforcement personnel conducted a search of the interior and exterior of the school. Investigators located CT registration 872YEO, a 2010, black colored Honda Civic unoccupied and parked in the fire lane directly in front of the school. The registered owner for the Honda Civic is Nancy Lanza, DOB 09/06/60, 36 Yogananda Street in Sandy Hook, CT.

5. That as investigators entered the school numerous school children and school personnel were located deceased from apparent gunshot wounds in the first three classrooms located off the main hallway, adjacent to the school's front entrance. That investigators also located a teenaged white male dressed in military style clothing, wearing a bullet proof vest lying deceased on the floor in the middle classroom. That the deceased male was in possession of several handguns as well as a military style assault weapon.

6. That law enforcement personnel including members of the Connecticut State Police, Emergency Service Unit, responded to the residence of Nancy Lanza at 36 Yogananda Street in Sandy Hook, CT. Upon arrival at Lanza's residence, Connecticut State Police Emergency Service Unit gained entry into the house and located a deceased middle aged white female lying in a supine position on a bed in the 2nd floor master bedroom. The white female sustained an apparent gunshot wound to her forehead. Investigators located a rifle on the floor near the bed.

7. That investigators conducted a further search of a residence, and no other people were inside the house. A vehicle (Connecticut registration 593XGR, 2009 BMW, color silver, registered to Nancy Lanza) was noted as being located parked within the garage of the residence, which is located attached and under the residence. The house, including the vehicle, has been secured by investigators for the preservation of evidence.

8. That the Affiants have personal knowledge, based upon their experience and training, that crimes of violence involve a struggle, a break, the use of weapons and other instrumentalities, and/or the element of unpredictability; the person or persons participating in the commission of a violent crime is/are in contact with physical surroundings in a forceful or otherwise detectable manner; there is often an attempt to alter, destroy, remove, clean up, or cover up evidence of a crime. That traces may be left in the form of blood, semen, saliva, physiological fluids and secretions, hair, fibers, fingerprints, palm prints, footprints, shoe prints, weapons and firearms including pistols, rifles, revolvers, shotguns, knives, hatchets, axes, cutting instruments and cutting tools,

blunt force instruments, projectiles, ammunition, bullet casings and fragments, gunshot residue (GSR), dirt, dust and soil, paint samples, glass and plastic fragments, marks of tools used to gain access to locked premises or containers and items containing traces of any of the above mentioned articles. Many of the above items are minute and/or microscopic, thus requiring additional specialized examination by forensic science laboratory techniques, such as that performed by the Connecticut State Police Forensic Science Laboratory.

9. That the Affiants also have personal knowledge, based upon their experience and training, that a crime scene, such as described above, will contain physical evidence, hereinbefore itemized, which will aid in establishing the identity of the perpetrator(s), the circumstances under which the crime was committed, and/or which in general will assist in the discovery of the pertinent facts and that such evidence requires a systematic search to locate, seize, record and process. That trace evidence left in the forms mentioned above is easily transferred between participants and inanimate objects such as surroundings, including their home or motor vehicle. That it is reasonable to believe and expect that a person responsible for committing a crime, such as the one described in this affidavit would come in contact with these forms of trace evidence and transfer them to their surroundings.

10. That the Affiants also have personal knowledge that the Department of Public Safety Forensic Science Laboratory located at 278 Colony St in Meriden, CT has the equipment, personnel and expertise necessary to conduct physical examination, scientific testing and forensic analysis, including but not limited to biological and chemical testing, instrumental analysis, firearms, photography, biochemistry, DNA, criminalistics, fingerprints, in order to locate, identify, compare and reconstruct items of evidence and trace evidence to aid in establishing the circumstances of the crime and identity of the participants involved in the crime. The Department of Public Safety Forensic Science Laboratory will use standardized and documented procedures to extract, amplify and detect DNA from evidentiary items and samples taken from known individuals. The resulting DNA profiles from the evidentiary items will be compared to the known individuals' profiles and the results documented in a laboratory report.

11. Based upon the facts and circumstances described above, your Affiants have probable cause to believe that evidence of the crime of murder, in violation of Connecticut General Statute 53a-54c, will be found within 36 Yogananda Street in Sandy Hook, Connecticut, and its curtilage, or upon the person of the deceased middle aged white female, who at this time has not been positively identified.

12. Therefore, your affiants are requesting a Search and Seizure warrant be issued for the residence at 36 Yogananda Street in Sandy Hook, Connecticut, and its curtilage including the aforementioned vehicle within (Connecticut registration 593XGR, 2009 BMW, color silver, registered to Nancy Lanza), or upon the person of the deceased middle aged white female, who at this time has not been positively identified.

Review of Electronic Evidence

On August 2, 2013 members of the Western District Major Crime Squad (WDMCS) received a Western Digital 320GB hard drive bearing serial number 000001D919A0 from the FBI. This drive contained forensic image files of certain pieces of electronic evidence seized from 36 Yogananda Street in Newtown, CT by members of the Connecticut State Police (CSP) pursuant to a search and seizure warrant. The CSP exhibits had been turned over to the FBI where the contents of each item were forensically imaged onto the Western Digital hard drive for further examination and analysis. This hard drive was then placed into an I/O Magic USB Enclosure to allow the imaged files to be viewed. Contained on the Western Digital drive are six (6) forensic image files that correspond with six CSP exhibits.

This Western Digital hard drive was assigned exhibit number 374 under case number CFS-12-00704559. Five of the six forensic image files were reviewed by members of the Western District Major Crime Squad at the request of State's Attorney Stephen Sedensky to determine if there were any items of evidentiary value located in them. The results of that review are detailed in the attached PDF document titled "Review of Electronic Evidence." The Western Digital drive was then submitted to the Connecticut State Police Forensic Science Laboratory Computer Crimes & Electronic Evidence section because the remaining forensic image file was unable to be viewed using the equipment/software available to WDMCS detectives. A separate report detailing the findings from the examination of that image file will be forthcoming from the Computer Crimes & Electronic Evidence section.

Refer to attached PDF document "Review of Electronic Evidence" for further details.

Date of Investigation: December 17, 2012

Location: Sandy Hook Elementary School / Cafeteria
Newtown, Connecticut

Summary of Incident: During the Newtown investigation and crime scene processing at Sandy Hook Elementary School, School Superintendent Janet Robinson requested that investigators secure petty cash from the kitchen area of the school. Ms. Robinson asked that the money be turned over to her assistant, Dr. Linda Gejda once secured.

Action Taken: On December 17, 2013, a formal request to secure petty cash from the Sandy Hook Elementary School kitchen was made by School Superintendent Janet Robinson. Chief Montgomery (Brookfield PD) forwarded this request to this writer who then met with Sergeant Jeff Covello of the WDMCS. Crime scene processing by CSP investigators was underway at the school at this time. At 1850 hours, Sergeant Covello and this writer went to the kitchen area of the school and located a clear plastic bag containing paperwork and US currency amounting to $428.45. The plastic bag was secured, photographed and inventoried. A JD-CR-18 'PD Use Only' was completed documenting the contents of the bag (see attached).

On December 18, 2013, the secured petty cash and inventory paperwork was turned over to Lieutenant Clanford Pierce of the Connecticut State Police who was instructed to meet with Dr. Linda Gejda. On this same date, Lt. Pierce met with Dr. Gejda who took possession of the school property and signed the JD-CR-18 form.

1. That the undersigned Affiants, Detective Christopher Allegro #950 and Detective John Kimball #877, are members of the Connecticut State Police, presently assigned to the Western District Major Crime Squad (WDMCS) and have approximately 28 years of combined law enforcement experience. Both Affiants have conducted numerous investigations of criminal activity including, but not limited to, murder, sexual assaults, kidnapping, robberies, narcotics violations, and assaults and have received specialized training in the processing of crime scenes and the collection of physical and trace evidence. The knowledge of the facts and circumstances contained hereinafter are the result of the Affiants' personal investigative efforts and observations, as well as those of other law enforcement officers acting in their official capacity, who related their findings to these Affiants.

2. On Friday December 14th, 2012 at approximately 0935 hours, Newtown Police Department Dispatch received a 9-1-1 call from a caller at the Sandy Hook Elementary School located at 12 Dickinson Drive in Newtown, Connecticut. The caller reported that an active shooting situation was occurring at the Sandy Hook Elementary School.

3. As a result of the 9-1-1 call, numerous law enforcement personnel, including members from the Newtown Police Department and the Connecticut State Police, responded to the Sandy Hook Elementary School in Newtown. Upon arrival, law enforcement personnel conducted a search of the interior and exterior of the school. Investigators located Connecticut registration 872YEO, a 2010 black-colored Honda Civic, unoccupied and parked near the fire lane directly in front of the school. The registered owner for the Honda Civic is Nancy Lanza, year of birth - 1960, of 36 Yogananda Street in Newtown, Connecticut.

4. As investigators entered the school, numerous children and school personnel were located deceased within the school. Investigators also located a white male dressed in military style clothing, lying deceased on the floor in room 10. The deceased male was in possession of several firearms. The deceased male has been positively identified as Adam Lanza, year of birth - 1992, hereinafter referred to as "the shooter", who resided at 36 Yogananda Street in Newtown, Connecticut.

5. Law enforcement personnel, including members of the Connecticut State Police - Emergency Service Unit, responded to the residence of Nancy Lanza at 36 Yogananda Street in Newtown, Connecticut. Upon arrival at Lanza's residence, members of the Connecticut State Police - Emergency Service Unit gained entry into the house and located a deceased middle-aged white female lying on a bed in the 2nd floor master bedroom. The white female sustained an apparent gunshot wound to her forehead. The deceased female was positively identified as Nancy Lanza, year of birth, 1960.

6. On Thursday December 14th, 2012, law enforcement agents interviewed a witness who knew Adam Lanza and stated the he rarely left his home and considered him to be a shut-in. The witness also stated that "the shooter" has a gun safe containing at least four guns. The witness also stated that "the shooter" had attended the Sandy Hook Elementary School.

7. On Thursday December 14th, 2012 a Search and Seizure Warrant (Mincey) was applied for and granted for the residence located at 36 Yogananda Street in Newtown, Connecticut. The Search and Seizure Warrant was authorized by the Honorable John F. Blawie.

8. During the execution of the Search and Seizure Warrant at the Lanza residence (36 Yogananda Street),

investigators seized various items of evidentiary value. Among these items were personal computers and electronic equipment that would provide the user with a means of communication via the Internet. "The shooter" resided at this address with his mother (Nancy Lanza) and would have had access to all the aforementioned items.

9. Through investigative efforts conducted by other law enforcement officers including a comprehensive review of seized items of evidentiary value, these Affiants learned that one of the computer hard drives located within the Lanza residence (36 Yogananda Street) contained an electronic folder labeled **"Combat Arms Screenshots"**. Within this folder were one-hundred seventy-two (172) digital "screenshots" or images taken while playing the video game, **"Combat Arms"**.

10. An Internet search of **Combat Arms** revealed it to be a multiplayer, free-to-play, modern, first-person shooter (FPS) game "served" or hosted by **Nexon America, Inc. located at 222 N. Sepulveda Boulevard, Suite 300, in El Segundo, California 90245.** Combat Arms has over 10,000,000 registered players. The game supports community features such as Clans, Internet Relay Chat (IRC), and an in-game Friends' List. Combat Arms uses a player ranking system based on total experience, using common military ranks that players can obtain. Completing objectives, killing other players, and leveling up one's rank gives the player money in the form of Gear Points (GP) that can then be used to purchase new equipment. Equipment includes weaponry, weapon attachments, and accessories for one's character. Players can also purchase equipment from the Black Market (previously known as the Nexon Cash Shop) using Nexon Cash (NX) that is bought with real-world money.

11. Further review of the aforementioned screenshots, revealed an online gaming account / character with the associated gamer tag, **"KAYNBRED"**. A gamer tag is a name (usually a pseudonym) adopted by a video gamer and used as the individual's preferred identification method within the gaming community. In this case, it appears that KAYNBRED was the sole gamer tag utilized when logging on / playing Combat Arms from this computer.

12. The gamer tag, KAYNBRED, also possessed a "clan tag", which is a unique marker, image, or symbol, used to identify that the gamer is a member of a specific clan. Clans are generally a group of gamers who play together as a team against other clans. They are most commonly found in online multi-player games in which one team can face off against another. Clans can also be formed to create loosely based affiliations perhaps by all being fans of the same game or merely gamers who have close personal ties to each other. FPS clans normally host servers with rules that they like. For instance, if a group of gamers like to use pistols only, they could join a clan that runs a pistols only server and the clan would enforce the rules. So, it is important to join a clan that has server rules you enjoy or you could easily find yourself removed from the clan. KAYNBRED was a member of clan **"MG14c"**. Additional information depicted within the screenshots, noted twenty-two (22) other gamer tags to be associated with clan MG14c as well as snippets of chat content corresponding (to and from) with KAYNBRED and other members of MG14c.

13. The definition of Internet Relay Chat (IRC) is a protocol for live interactive Internet text messaging (chat) or synchronous conferencing. It is mainly designed for group communication in discussion forums, called channels but also allows one-to-one communication via private message as well as chat and data transfer including file sharing. Combat Arms affords its users the following four (4) means of IRC from which to communicate while gaming: "All Chat", "Clan Chat Only", "Channel Chat", and a "Community Forum".

14. Based on the Affiants' training and experience, a perpetrator(s), or persons knowing the victim(s), may have communicated by way of Internet Relay Chat (IRC) while participating in virtual communities, including but not

limited to Internet-based FPS games. Also, any co-conspirators in the planning, execution, and/or cover up of a particular crime may have communicated by way of IRC. Additionally, persons who communicate or attempt to communicate in this manner may have knowledge or valuable information leading to the identification of a perpetrator(s), and/or potential witness(s) of the crime.

15. The Affiants have personal knowledge that the "game server" or host of Combat Arms is **Nexon America, Inc., 222 N. Sepulveda Boulevard, Suite 300, El Segundo, California 90245.**

16. Based upon the facts and circumstances described above, the Affiants have probable cause to believe that **Nexon America, Inc., 222 N. Sepulveda Boulevard, Suite 300, El Segundo, California 90245** has in its possession account information associated with the gamer tag, **"KAYNBRED"** and the gamer tags within clan **"MG14c"**, which will contain evidence relating to the crime of Murder, in violation of Connecticut General Statute (C.G.S. 53a-54c).

17. Therefore, your Affiants are respectfully requesting a Search and Seizure warrant be issued for **Nexon America, Inc., 222 N. Sepulveda Boulevard, Suite 300, El Segundo, California 90245** for any information associated with the accounts: "KAYNBRED" and the gamer tags within clan "MG14c" ; All subscriber information, including full name(s), physical address(es), account identifier(s), email address(es), and telephone number(s) ; Account status, alternative email addresses provided during registration ; All transaction or connectivity logs, including records of session times, dates, durations, and assigned IP addresses ; Length of service (including start date) and types of service utilized ; All means and source of payment for such service (including any credit card or bank account number) ; All content associated with chat communications, including but not limited to "All Chat", "Clan Chat Only", "Channel Chat", and "Community Forum" between "KAYNBRED" and gamer tags within clan "MG14c" ; All records or other information stored at any time by an individual using the accounts, including address books, contact and buddy lists, calendar data, pictures, and files ; All records pertaining to communications between Nexon America, Inc. and any person regarding the account, including contacts with support services and records of actions taken ; other records identifying any individuals who owned, used, or accessed the aforementioned accounts, including but not limited to account opening records, subscriber contact information, account access logs, and email header information for the period of **January 1st, 2009 through December 31st, 2012.**

18. Both California law, under the California Penal code Sec. 1524.2, and federal law, under 18 U.S.C. 2703, provide authority for out-of-state search warrants of providers of electronic communication services or remote computing services.

and the facts establishing the grounds for issuing a Search and Seizure Warrant are the following:

1. That the undersigned Affiants, Detective Christopher Allegro #950 and Detective John Kimball #877, are members of the Connecticut State Police, presently assigned to the Western District Major Crime Squad (WDMCS) and have approximately 28 years of combined law enforcement experience. The registered owner for the Honda Civic is Nancy Lanza, year of birth - 1960, of 36 Yogananda Street in Newtown, Connecticut.

4. As investigators entered the school, numerous children and school personnel were located deceased within the school. Investigators also located a white male dressed in military style clothing, lying deceased on the floor in room 10. The deceased male was in possession of several firearms. The deceased male has been positively identified as Adam Lanza, year of birth - 1992, hereinafter referred to as "the shooter", who resided at 36 Yogananda Street in Newtown, Connecticut.

5. Law enforcement personnel, including members of the Connecticut State Police - Emergency Service Unit, responded to the residence of Nancy Lanza at 36 Yogananda Street in Newtown, Connecticut. Upon arrival at Lanza's residence, members of the Connecticut State Police - Emergency Service Unit gained entry into the house and located a deceased middle-aged white female lying on a bed in the 2nd floor master bedroom. investigators seized various items of evidentiary value. Among these items were personal computers and electronic equipment that would provide the user with a means of communication via the Internet. "The shooter" resided at this address with his mother (Nancy Lanza) and would have had access to all the aforementioned items.

9. Through investigative efforts conducted by other law enforcement officers including but not limited to detailed interviews with relatives of "the shooter" and the comprehensive review of items of evidentiary value, these Affiants learned that "the shooter" played the online game, **"World of Warcraft (WoW)"**, and that the relatives had paid for the subscription. Also, that one of the computer hard drives located within the Lanza residence (36 Yogananda Street) contained an electronic folder labeled "videos". Within this folder were three (3) video files of recorded game play of **World of Warcraft (WoW)**. These files were named: **"blarvink"**, **"gnome"**, and **"gnomecompressed"**.

10. An Internet search for **World of Warcraft (WoW)** revealed it to be a "Massively Multiplayer Online Role-Playing Game (MMORPG)" hosted by **Blizzard Entertainment, Inc. located at 16215 Alton Parkway in Irvine, California 92618**. With over 7 million subscribers as of July 2013, World of Warcraft is currently the world's most-subscribed MMORPG and holds the Guinness World Record for the most popular MMORPG by subscribers. Additionally, in World of Warcraft the user controls an avatar (usually a pseudonym), which is the graphical representation of the user or the user's alter ego or character within the game. World of Warcraft also requires the user to pay for a subscription, either by buying prepaid game cards for selected amount of playing time, or by using a credit or debit card to pay on a regular basis.

11. Further review of the aforementioned videos, revealed an online gaming account / character with the associated avatar, **"blarvink"**. In this case, it appears that blarvink was the sole avatar utilized when logging on / playing World of Warcraft (WoW) from this computer.

12. World of Warcraft supports gaming community features such as Guilds, Internet Relay Chat (IRC), and an in-game Friends List / Real ID Friends List. Guilds are generally a group of gamers who play together as a team against other guilds. They are most commonly found in online multi-player games in which one team can face off against another. Guilds can also be formed to create loosely based affiliations perhaps by all being fans of the same game or merely gamers who have close personal ties to each other. It is mainly designed for group communication in discussion forums, called channels but also allows one-to-one communication via private message as well as chat and data transfer including file sharing. World of Warcraft affords its users the following four (4) means of IRC from which to communicate while gaming: "Chat Channels", "Custom Channel (user created for privacy)", "Voice Chat", and "Other Chat". Not to mention, various public blogging forums and game-related discussion boards.

14. Based on the Affiants' training and experience, a perpetrator(s), or persons knowing the victim(s), may have communicated by way of Internet Relay Chat (IRC) while participating in virtual communities, including but not limited to Internet-based MMORPG games. Also, any co-conspirators in the planning, execution, and/or cover up of a particular crime may have communicated by way of IRC. And the facts establishing the grounds for issuing the Search and Seizure Warrant are the following:

1. That the undersigned Affiants, Detective Christopher Allegro #950 and Detective John Kimball #877, are members of the Connecticut State Police, presently assigned to the Western District Major Crime Squad (WDMCS) and have approximately 28 years of combined law enforcement experience. Both Affiants have conducted numerous investigations of criminal activity including, but not limited to, murder, sexual assaults, kidnapping, robberies, narcotics violations, and assaults and have received specialized training in the processing of crime scenes and the collection of physical and trace evidence. The knowledge of the facts and circumstances contained hereinafter are the result of the Affiants' personal investigative efforts and observations, as well as those of other law enforcement officers acting in their official capacity, who related their findings to these Affiants.

2. On Friday December 14th, 2012 at approximately 0935 hours, Newtown Police Department Dispatch received a 9-1-1 call from a caller at the Sandy Hook Elementary School located at 12 Dickinson Drive in Newtown, Connecticut. The caller reported that an active shooting situation was occurring at the Sandy Hook Elementary School.

3. As a result of the 9-1-1 call, numerous law enforcement personnel, including members from the Newtown Police Department and the Connecticut State Police, responded to the Sandy Hook Elementary School in Newtown. Upon arrival, law enforcement personnel conducted a search of the interior and exterior of the school. Investigators located Connecticut registration 872YEO, a 2010 black-colored Honda Civic, unoccupied and parked near the fire lane directly in front of the school. The registered owner for the Honda Civic is Nancy Lanza, year of birth - 1960, of 36 Yogananda Street in Newtown, Connecticut.

4. As investigators entered the school, numerous children and school personnel were located deceased within the school. Investigators also located a white male dressed in military style clothing, lying deceased on the floor in room 10. The deceased male was in possession of several firearms. The deceased male has been positively identified as Adam Lanza, year of birth - 1992, hereinafter referred to as "the shooter", who resided at 36 Yogananda Street in Newtown, Connecticut.

5. Law enforcement personnel, including members of the Connecticut State Police - Emergency Service Unit, responded to the residence of Nancy Lanza at 36 Yogananda Street in Newtown, Connecticut. Upon arrival at Lanza's residence, members of the Connecticut State Police - Emergency Service Unit gained entry into the house and located a deceased middle-aged white female lying on a bed in the 2nd floor master bedroom. The white female sustained an apparent gunshot wound to her forehead. The deceased female was positively identified as Nancy Lanza, year of birth - 1960.

6. On Thursday December 14th, 2012, law enforcement agents interviewed a witness who knew Adam Lanza and stated the he rarely left his home and considered him to be a shut-in. The witness also stated that "the shooter" has a gun safe containing at least four guns. The witness also stated that "the shooter" had attended the Sandy Hook Elementary School.

7. On Thursday December 14th, 2012 a Search and Seizure Warrant (Mincey) was applied for and granted for the residence located at 36 Yogananda Street in Newtown, Connecticut. The Search and Seizure Warrant was authorized by the Honorable John F. Blawie.

8. During the execution of the Search and Seizure Warrant at the Lanza residence (36 Yogananda Street),

investigators seized various items of evidentiary value. Among these items were personal computers and electronic equipment that would provide the user with a means of communication via the Internet. "The shooter" resided at this address with his mother (Nancy Lanza) and would have had access to all the aforementioned items.

9. Through investigative efforts conducted by other law enforcement officers including but not limited to detailed interviews with witnesses who knew "the shooter" and the comprehensive review of items of evidentiary value, these Affiants learned that "the shooter" communicated with multiple persons using the following two (2) email addresses: blarvink@gmail.com and genericregistryemail@gmail.com.

10. Based on the Affiants' training and experience, a perpetrator(s), or persons knowing the victim(s), may have communicated by way of email. Also, any co-conspirators in the planning, execution, and/or cover up of a particular crime may have communicated by way of email. Additionally, persons who communicate or attempt to communicate in this manner may have knowledge or valuable information leading to the identification of a perpetrator(s), and/or potential witness(s) of the crime. In this particular case, it is believed from the investigation that the emails will reveal information on the mental state of "the shooter".

11. The Affiants have personal knowledge that the host, server, or domain segment of the target email addresses, which is the "**gmail.com**" in blarvink@gmail.com and genericregistryemail@gmail.com, denotes that the email service provider is **Google, Inc.**

12. Based upon the facts and circumstances described above, the Affiants have probable cause to believe that **Google, Inc. - Custodian of Records, 1600 Amphitheatre Parkway, Mountain View, California 94043** has in its possession account information and records associated with the email addresses: blarvink@gmail.com and genericregistryemail@gmail.com, which will contain evidence relating to the crime of Murder, in violation of Connecticut General Statute (C.G.S. 53a-54c).

13. Therefore, your Affiants are respectfully requesting a Search and Seizure warrant be issued for **Google, Inc. - Custodian of Records, 1600 Amphitheatre Parkway, Mountain View, California 94043**, for the contents of all emails associated with blarvink@gmail.com and genericregistryemail@gmail.com, including stored or preserved copies of emails sent to and from the accounts, draft emails, the source and destination addresses associated with each email, the date and time at which each email was sent, and the size and length of each email ; All records or other information regarding the identification of the accounts, to include full name, physical address, telephone numbers and other identifiers, records of session times and durations, the date on which the account was created, the length of service, the types of service utilized, the IP address used to register the account, login IP addresses associated with session times and dates, account status, alternative email addresses provided during registration, methods of connecting, log files, and means and source of payment (including any credit or bank account number) ; All records or other information stored at any time by an individual using the accounts, including address books, contact and buddy lists, calendar data, pictures, and files ; All records pertaining to communications between the Internet Service Provider (**Google, Inc.**) and any person regarding the account, including contacts with support services and records of actions taken ; All email messages or other records identifying any individuals who owned, used, or accessed the aforementioned accounts, including but not limited to account opening records, subscriber contact information, account access logs, and email header information for the period of **January 1st, 2009 through December 31st, 2012.**

And the facts establishing the grounds for issuing a Search and Seizure Warrant are the following:

1. That the undersigned Affiants, Detective Christopher Allegro #950 and Detective John Kimball #877, are members of the Connecticut State Police, presently assigned to the Western District Major Crime Squad (WDMCS) and have approximately 28 years of combined law enforcement experience. Both Affiants have conducted numerous investigations of criminal activity including, but not limited to, murder, sexual assaults, kidnapping, robberies, narcotics violations, and assaults and have received specialized training in the processing of crime scenes and the collection of physical and trace evidence. The knowledge of the facts and circumstances contained hereinafter are the result of the Affiants' personal investigative efforts and observations, as well as those of other law enforcement officers acting in their official capacity, who related their findings to these Affiants.

2. On Friday December 14th, 2012, at approximately 0935 hours, Newtown Police Department Dispatch received a 9-1-1 call from a caller at the Sandy Hook Elementary School located at 12 Dickinson Drive in Newtown, Connecticut. The caller reported that an active shooting situation was occurring at the Sandy Hook Elementary School.

3. As a result of the 9-1-1 call, numerous law enforcement personnel, including members from the Newtown Police Department and the Connecticut State Police, responded to the Sandy Hook Elementary School in Newtown. Upon arrival, law enforcement personnel conducted a search of the interior and exterior of the school. Investigators located Connecticut registration 872YEO, a 2010 black-colored Honda Civic, unoccupied and parked near the fire lane directly in front of the school. The registered owner for the Honda Civic is Nancy Lanza, year of birth - 1960, of 36 Yogananda Street in Newtown, Connecticut.

4. As investigators entered the school, numerous children and school personnel were located deceased within the school. Investigators also located a white male dressed in military style clothing, lying deceased on the floor in room 10. The deceased male was in possession of several firearms. The deceased male has been positively identified as Adam Lanza, year of birth - 1992, hereinafter referred to as "the shooter", who resided at 36 Yogananda Street in Newtown, Connecticut.

5. Law enforcement personnel, including members of the Connecticut State Police - Emergency Service Unit, responded to the residence of Nancy Lanza at 36 Yogananda Street in Newtown, Connecticut. Upon arrival at Lanza's residence, members of the Connecticut State Police - Emergency Service Unit gained entry into the house and located a deceased middle-aged white female lying on a bed in the 2nd floor master bedroom. The white female sustained an apparent gunshot wound to her forehead. The deceased female was positively identified as Nancy Lanza, year of birth - 1960.

6. On Thursday December 14th, 2012, law enforcement agents interviewed a witness who knew Adam Lanza and stated the he rarely left his home and considered him to be a shut-in. The witness also stated that "the shooter" has a gun safe containing at least four guns. The witness also stated that "the shooter" had attended the Sandy Hook Elementary School.

7. On Thursday December 14th, 2012, a Search and Seizure Warrant (Mincey) was applied for and granted for the residence located at 36 Yogananda Street in Newtown, Connecticut. The Search and Seizure Warrant was authorized by the Honorable John F. Blawie.

8. During the execution of the Search and Seizure Warrant at the Lanza residence (36 Yogananda Street), investigators seized various items of evidentiary value. Among these items were personal computers and electronic equipment that would provide the user with a means of communication via the Internet. "The shooter" resided at this address with his mother (Nancy Lanza) and would have had access to all the aforementioned items.

9. Through investigative efforts conducted by other law enforcement officers including a comprehensive review of

seized items of evidentiary value, these Affiants learned that one of the computer hard drives located within the Lanza residence (36 Yogananda Street) contained an electronic folder labeled "Combat Arms Screenshots". Within this folder were one-hundred seventy-two (172) digital "screenshots" or images taken while playing the video game, "Combat Arms".

10. An Internet search of Combat Arms revealed it to be a multiplayer, free-to-play, modern, first-person shooter (FPS) game "served" or hosted by Nexon America, Inc. located at 222 N. Sepulveda Boulevard, Suite 300, in El Segundo, California 90245.

11. Further review of the aforementioned screenshots, revealed an online gaming account / character with the associated gamer tag, "KAYNBRED". A gamer tag is a name (usually a pseudonym) adopted by a video gamer and used as the individual's preferred identification method within the gaming community. In this case, it appears that KAYNBRED was the sole gamer tag utilized when logging on / playing Combat Arms from this computer.

12. On Tuesday August 27th, 2013, a Search and Seizure Warrant was applied for and granted for Nexon America, Inc. for any information associated with the account: "KAYNBRED". The Search and Seizure Warrant was authorized by the Honorable John F. Blawie and executed that same day.

13. On Friday September 6th, 2013, these Affiants received the results of the Search and Seizure Warrant executed for Nexon America, Inc. After a comprehensive review of said results, these Affiants identified the **"user email"** address: kaynbred@gmail.com, contained within "the shooter's" **"Nexon User Profile"**.

14. Based on the Affiants' training and experience, a perpetrator(s), or persons knowing the victim(s), may have communicated by way of email. Also, any co-conspirators in the planning, execution, and/or cover up of a particular crime may have communicated by way of email. Additionally, persons who communicate or attempt to communicate in this manner may have knowledge or valuable information leading to the identification of a perpetrator(s), and/or potential witness(s) of the crime.

15. The Affiants have personal knowledge that the host, server, or domain segment of the target email address, which is the **"gmail.com"** in kaynbred@gmail.com, denotes that the email service provider is **Google, Inc.**

16. Based upon the facts and circumstances described above, the Affiants have probable cause to believe that **Google, Inc. - Custodian of Records, 1600 Amphitheatre Parkway, Mountain View, California 94043** has in its possession account information and records associated with the email address: kaynbred@gmail.com, which will contain evidence relating to the crime of Murder, in violation of Connecticut General Statute (C.G.S. 53a-54c).

17. Therefore, your Affiants are respectfully requesting a Search and Seizure warrant be issued for **Google, Inc. - Custodian of Records, 1600 Amphitheatre Parkway, Mountain View, California 94043**, for the contents of all emails associated with kaynbred@gmail.com, including stored or preserved copies of emails sent to and from the accounts, draft emails, the source and destination addresses associated with each email, the date and time at which each email was sent, and the size and length of each email ; All records or other information regarding the identification of the accounts, to include full name, physical address, telephone numbers and other identifiers, records of session times and durations, the date on which the account was created, the length of service, the types of service utilized, the IP address used to register the account, login IP addresses associated with session times and dates, account status, alternative email addresses provided during registration, methods of connecting, log files, and means and source of payment (including any credit or bank account number) ; All records or other information stored at any time by an individual using the accounts, including address books, contact and buddy lists, calendar data, pictures, and files ; All records pertaining to communications between the Internet Service Provider (**Google, Inc.**) and any person regarding the account, including contacts with support services and records of actions taken ; All email messages or other records identifying any individuals who owned, used, or accessed the aforementioned accounts, including but not

Exhibit Report (Hard Drive) # 374

On August 2, 2013 members of the Western District Major Crime Squad (WDMCS) received a Western Digital 320GB hard drive bearing serial number 000001D919A0 from the FBI. This drive contained forensic image files of certain pieces of electronic evidence seized from 36 Yogananda Street in Newtown, CT by members of the Connecticut State Police (CSP) pursuant to a search and seizure warrant. The CSP exhibits had been turned over to the FBI where the contents of each item were forensically imaged onto the Western Digital hard drive for further examination and analysis. The CSP Exhibits imaged onto this drive are Exhibits # 4, # 24, # 31 and # 44 (seized under case # CFS-12-00705354) and Exhibits # 601 and # 602A (seized under CFS-12-00704559). This hard drive was then placed into an I/O Magic USB Enclosure to allow the imaged files to be viewed.

This Western Digital hard drive with I/O Magic USB Enclosure was assigned Exhibit # 374 under case number CFS-12-00704559. Five of the six forensic image files were reviewed by members of the Western District Major Crime Squad at the request of State's Attorney Stephen Sedensky to determine if there were any items of evidentiary value located in them. The results of that review are detailed in a separate report titled "Review of Electronic Evidence." The Western Digital drive was then submitted to the Connecticut State Police Forensic Science Laboratory Computer Crimes & Electronic Evidence section on 09/25/13 because the remaining forensic image file was unable to be viewed using the equipment/software available to WDMCS detectives. A separate report detailing the findings from the examination of that image file will be forthcoming from the Computer Crimes & Electronic Evidence section.

RESULTS OF EXAMINATION:

1. DNA was previously extracted and analyzed from all items and submissions listed within the Evidence portion of the Evidence Description section. DNA was extracted from submissions [redacted] DNA was purified according to standard laboratory protocols.

2A. Extracted material obtained from submissions #[redacted] was amplified by the AmpF*l*STR Identifiler Plus procedure as described in laboratory protocols. STR alleles were separated and detected by standard laboratory protocols. Based upon limited data, the profile results from submission #[redacted] were not suitable for comparison to all items and submissions listed within the Evidence portion of the Evidence Description section.

2B. The following results were obtained on the amplified items:

EVIDENCE TRANSFER – FBI TO CSP

Following a meeting at the Connecticut Forensic Science Laboratory on 07/11/2013, Special Agent Scott Dugas of the FBI turned over several items of evidence to Sgt. Michael DeCesare's custody. These items, as detailed below, were originally seized by the Connecticut State Police from 36 Yogananda Street in Newtown pursuant to a Connecticut Search and Seizure warrant in connection with the investigation into the mass murder at Sandy Hook Elementary School on 12/14/2012. The items had then been turned over to the FBI for forensic examination. As a result, each item bears a Connecticut State Police exhibit number and an FBI exhibit number, as well as the State Police case number each item was seized under.

The items were immediately transported to Troop G in Bridgeport where they were placed into the Western District Major Crime Temporary Evidence pending their re-examination by WDMC detectives at the request of Danbury State's Attorney Stephen Sedensky.

The items were returned to the Connecticut State Police on 07/11/2013, at which time Danbury State's Attorney Stephen Sedensky requested that the below listed items be re-examined to the extent possible by members of the Western District Major Crime Squad to determine if any item contained evidence relevant to the school shooting. For the purposes of this examination and subsequent reporting, the items were divided into three groups:

1) The computers and related storage devices (CSP exhibit numbers 4, 24, 31 and 44 under CFS-12-00705354 and exhibit numbers 601 and 602A under CFS-12-00704559) were examined under a separate report titled "REVIEW OF ELECTRONIC EVIDENCE."

2) The three gaming consoles (CSP exhibit numbers 2, 12 and 43 under CFS-12-00705354) were submitted to the Connecticut Forensic Laboratory on 07/25/2013 by Det. Flynn #644 for analysis. The results of that examination are detailed under a separate report titled "GAMING CONSOLES EXAMINATION."

3) The remaining exhibits were examined as detailed below in this report.

GAMING CONSOLES EXAMINATION

Numerous items were seized by the Connecticut State Police from 36 Yogananda Street in Newtown pursuant to a Connecticut Search and Seizure warrant in connection with the investigation into the mass murder at Sandy Hook Elementary School on 12/14/2012. Shortly thereafter these items were turned over to the FBI for forensic examination, and as a result each item bears a Connecticut State Police exhibit number and an FBI exhibit number. For record keeping and tracking purposes, it should be noted that these items were seized under State Police case number CFS-12-00705354.

The items were returned to the Connecticut State Police on 07/11/2013, at which time Danbury State's Attorney Stephen Sedensky requested that the three video game consoles be re-examined by Connecticut Forensic Science Laboratory to determine if any item contained evidence relevant to the school shooting. Det. Flynn #644 submitted the three consoles to the Forensic Science Laboratory on 07/25/2013 for analysis under Lab ID number ID-12-002105, CSP case number CFS-12-00704597.

The Forensic Lab examined the consoles by connecting them to a monitor, powering them up and viewing the screens as a user would have. Photos were then taken of the various screens to capture and document the information contained on them. The internal hard drives themselves could not be forensically examined due to the proprietary software they are programmed under. The Lab then issued a written report with a CD containing copies of the photographs, both of which are attached to this report.

The submitted gaming consoles and examination results are as follows:

DESCRIPTION: Sony PlayStation 2
RESULTS OF EXAMINATION: The gaming history and console information that was displayed on the lab monitor was actually stored on a memory card that was inserted into the console. The games "Dynasty Tactics," "Kingdom Hearts," "Kingdom Hearts II," "Onimusha," "Dynasty Warriors," and "The Two Towers" were found in the gaming history according to the photos provided (but not listed in the Lab report). All of those games are older strategy/fantasy role playing games aimed at preteens/teens, designed for console only use (no online multi-player functionality). It should be noted that this gaming history may not be a complete listing of each game that a user has played on the system in the past. Additionally, no username or other account information was found on the memory card for this gaming system or included in the Lab report.

Lab Submission #: 127

DESCRIPTION: Xbox
RESULTS OF EXAMINATION: While viewing the console at the Lab, information including a MAC address of "0050F2C02BB4," a game history for the console and an indication of an Xbox Live user account were found. It should be noted that the MAC address as listed above was not noted in the official written Lab report, but read from the provided photo image and may not be accurate. Also, no specific user name was noted in the official Lab report either, but again a possible user name of "DS9345" was visible in the photo images of the console The games found in the gaming history (also not listed in the Lab report) included "Call of Duty 2: Big Red One," "Call of Duty: Finest Hour," "Dead or Alive 3," "Halo," "Halo 2," "Lego Star Wars," "MechAssault," Mercenaries," "MGS2 Substance," Panzer Dragoon ORTA," PSO," "Shenmue II," "Spiderman," "Splinter Cell 2," "Splinter Cell-CT," "Star Wars Battlefront," "Star Wars Republic Commando," Tenchu: Return from Darkness," "The Return of the King," and "Worms Forts Under Siege." It should be noted that this gaming history may not be a complete listing of each game that a user has played on the system in the past.
